

The Tampa Area Safety Council, Inc.
Presents
ASM© (Advanced Safety Management)
Policy Development & Implementation

*** Host University of South Florida OSHA Training Institute Education Center. ***

The development of a written safety program is sometimes left to the safety director who is commonly more experienced in field activities or training modalities. This seminar suggests fundamental elements and ideas for the implementation of those actions that lead to an effective Safety Program. Today's safety and risk management professionals are often being asked to justify their program in terms of fiscal benefit for the organization. Without a knowledge of corporate finance, the safety manager is often less effective in communicating with senior management.

Topics to be covered are:

- ◆ Safety Analysis & Management Information
- ◆ Safety Policy & Program Organization
- ◆ General Safety Programs
- ◆ Effective Safety Training
- ◆ Achieving Compliance with the Safety Program
- ◆ Safety Resources
